PROJECTS

HireLink Job Seeking Application
[23 May 2023 – 28 Jul 2023]

As the Backend Developer for our project "HireLink," a cutting-edge job-finding and real-time service application similar to Fiverr, my role was instrumental in bringing the platform to life. I meticulously designed and implemented the backend architecture, ensuring seamless communication between the database and the user interface. My responsibilities

encompassed crafting efficient APIs, managing data storage, and optimizing system performance to guarantee a smooth and responsive user experience. By leveraging my expertise, I played a pivotal role in shaping the core functionality of HireLink, empowering users to effortlessly connect and engage in a dynamic marketplace for services and opportunities.
